

Enterprise Waste Management Ltd

QUALITY POLICY STATEMENT

Enterprise Waste Management Ltd maintains an effective and efficient integrated Quality and Environmental Management System.

All services offered are tailor made to meet current industry market demands and expectations. Management and staff are committed to providing services that comply in all aspects with the requirements contained in customer contracts to achieve total customer satisfaction.

The business will give careful attention to all customer needs in respect of the products and services provided; including on-time delivery, competitive prices, consistently high quality and continual quality improvement. This is achieved through the monitoring and review of Quality Objectives and Targets which are set at the scheduled Management Review meetings.

This policy is implemented through the operation of a documented Quality System, which is subject to internal and external audit and review at regular intervals. All policies and procedures have been structured to meet the requirements of ISO 9001:2015.

All members of staff are aware of the business' commitment to quality, and are required to observe quality requirements at all times.
